# Rostow Resigns Disarmament Post At Reagan Request

PARIS, THURSDAY, JANUARY 13, 1983

WASHINGTON - Eugene V. Rostow, the director of the U.S. Arms Control and Disarmament Agency and the man in charge of nuclear arms negotiations with the Soviet Union, resigned Wednesday at the request of President Ronald

Mr. Rostow, 69, had been asailed by a number of conservative Republican senators, who last week forced the removal of his deputy, Robert T. Grey Jr. Mr. Rostow responded by accusing them of

trying to take over agency.

Mr. Rostow was the third highranking administration official to resign in two weeks. Drew L. Lewis, the secretary of transportation, quit after Christmas, and Richard Schweiker resigned as secretary health and human services on Fuesday. [Page 3.]

"It has been a privilege to serve as director of ACDA for the last 20 months." Mr. Rostow said Wednesday, "In recent days it has become elear that the president wished to make changes. In response to his request, I have tend-

After Mr. Grey's confirmation was blocked, Mr. Rostow denied a week ago that he would follow his colleague out of office.

But he said he was concerned that the dispute could hurt the U.S.-Soviet arms negotiations due to resume next month in Geneva. Charging that Mr. Grey was am-bushed, Mr. Rostow said that

ment at all were trying to take over the arms control agency. The Soviets can try to exploit the doubts, and they get very anxious at the thought that any extremist American group might take charge of American nuclear poli-

Yasuhiro Nakasone of Japan re-jected Wednesday a Japanese military role on the Korean peninsula. He said at the end of a two-day

visit to South Korea that the Japanese Constitution, which renounces war, prevented any military cooperation with countries other than the United States.

South Korean newspapers earli-er reported that Mr. Nakasone and President Chun Doo Hwan of South Korea had agreed to increase security cooperation among South Korea, Japan and the United States. But before returning to Tokyo, Mr. Nakasone said: "No such subject was discussed."

In a communiqué with President Chun at the end of the first official visit to South Korea by a Japanese prime minister. Mr. Nakasone pledged the maximum possible

Reuters Japanese cooperation in Seoul's SEOUL — Prime Minister 1982-86 development program. The communique did not give figures, but the two countries agreed earlier Tuesday on \$4 billion in Japanese aid.

The aid package was agreed upon in separate talks between the Japanese foreign minister, Shintaro Abe, and South Korea's Lee Bum Suk after two years of difficult negotiations between Seoul and To-kyo. The South Koreans had originally asked \$6 billion.

The aid will be extended over about seven years beginning at an average annual interest rate of about 6 percent the officials said.

Mr. Nakasone said that Mr. raised. Chun had asked him to urge President Ronald Reagan to reject calls for protectionism and maintain the principles of free trade when he visits Washington next week.

# U.S. Said to Consider Tax Surcharge of 10% To Cut Deficit in 1986

By Thomas B. Edsall Washington Post Service

WASHINGTON — As a possible option to raise about \$40 billion in 1986, Treasury Department officials are said to be considering a 10-percent surcharge on individual, and possibly corporate, income

In the last-minute drive to come up with ways to reduce long-range deficits as the budget is readied for printing, the surcharge would solve a number of immediate political and practical problems, Reagan administration sources said, although it is by no means clear that Congress or President Ronald Reagan would approve such a tax

increase. The advantages appear to be as

follows: • For an administration comimposed for a year.

• At 9 percent to 10 percent, a surcharge on corporate and indi-vidual income taxes almost exactly fills the goal of raising I percent of the gross national product, the ceiling on tax increases set by Mr. Reagan. A 10-percent surcharge would raise the amount of tax paid by an individual or corporation by

• With a deadline of Friday for sending budget documents to the printer, the surcharge proposal is simple enough to incorporate Mr. Weinherger said, "and when quickly, as opposed to a set of complex, multiple tax increases along the lines of legislation enacted last year.

In preparing the budget for the fiscal year 1983, officials estimated 1986 corporate and individual tax receipts at about \$485 billion, indicating that a 10-percent surcharge would raise \$48.5 billion. Since then, estimates of economic growth have been reduced but taxes were

Treasury Secretary Donald T. Regan has ruled out a number of other tax increases considered to have some justification on economic and equity grounds. They in-clude elimination of the deductions

#### Group Criticizes **Health Care Cuts** For Poor in U.S.

WASHINGTON - The Children's Defense Fund has asserted that reductions in Medicaid and re-

dren" across the nation. life and health as a result of federal—the Israeli, Lebanese and U.S. dele-

aid program, which provides medical assistance to the poor, because of reductions in eligibility that President Ronald Reagan pushed through Congress in 1981.

The study also found that every state reduced Medicaid coverage or services for mothers and children in some way, and that about 725.000 people, two-thirds of them children or women of childbearing age, were deprived of services at Community Health Centers be-

cause of cuts in federal financing.

Also, the Maternal and Child Health program to ensure that pregnant women and babies get adequate health care was cut back in 47 states. In most cases, the states were unable to make up for the loss of federal funds.

Thus far, they have failed to 700,000 children from low-income produce agreement on the scope families were cut from the Medic- and wording of an agenda for the substantive negotiations.

> The U.S. special envoy. Philip C. Hahib, is scheduled to meet Thursday with Mr. Begin and will reportedly deliver a message from President Ronald Reagan on the imporlance of accelerating the troop withdrawal talks.

The dispute over the agenda centers on Israel's insistence that Lebanon agree to normal relations with Israel, including an open border and the free flow of trade and tourism, in return for an Israeli troop withdrawal from the southern third of the country.

The Lebanese, fearful of the re-Moslem majority and throughout the Arab world if they agree to for mal ties with Israel, want the talks to concentrate on the troop-withdrawal issue and Israel's demand for "security arrangements" in southern Lebanon.

## British Order Expulsion Of a Russian Translator

LONDON - In the latest in a string of expulsions. Britain ordered a Soviet employee of the International Wheat Council on Wednesday to leave London because of "activities incompatible with his position." a diplomatic pbrase for spying.

Vladimir A. Chernov, 31, a Russian-language translator for the council since September 1978, was given a week to leave the country, a Foreign Office statement said.
It said British officials had lodged a protest with the Soviet

Emhassy about "Soviet abuse of an independent international organization." The statement did not elaborate on Mr. Chernov's alleged activities.

Mr. Chernov denied he had behaved improperly. "I have done nothing to hypass the rules and regulations dealing with foreigners in this country," be told the Press Association, the British

domestic news agency.

The International Wheat Council is a United Nations-sponsored body that monitors and coordinates world production and consumption of wheat, Mr. Chernov's expulsion follows a series of spy cases in Britain during the past 15 months; a half-dozen Soviet officials have been expelled.

# U.S. Awaits Statement in the latest U.S. proposal to break the deadlock in the negotiations on By Hussein on Talks

By Bernard Gwertzman New York Times Service

WASHINGTON - Administration officials say they are counting on King Hussein of Jordan to declare his readiness to join in negoti-ations on Palestinian self-rule by

The officials caution, however, that his expected statement probably will only translate into actual negotiations with Israel and Egypl if there is progress on removing foreign troops from Lebanon and if Israel agrees to some good-faith establishing new Jewish settlements on the West Bank and Gaza

Also important to Hussein, the officials said Tuesday, is the atti-tude of the Palestine Liberation Organization leadership, which has been discussing with him the make-up of a possible joint Jordanian-Palestinian delegation to the talks. With all these uncertainties, officials said, it is possible that the U.S. effort to persuade Hussein to join the negotiations might fail. But for the moment, officials said. the timetable looks encouraging for

Yasser Arafat, the PLO leader, concluded talks on Monday with Hussein in Amman and arrived Tuesday in Moscow for talks with Soviet leaders. So far, U.S. officials said, Mr. Arafal has not tried to action among the country's sabotage the possible negotiations.

late next month.

### Upjohn Assailed At U.S. Hearing On Contraceptive

Washington Post Service
WASHINGTON --- A Food and Drug Administration consultant has criticized the Upjohn Co. for selling an injectable birth control drug to 10 million women around the world without safety studies.

Robert N. Hoover, chief of the environmental epidemiology branch at the National Cancer Institute and an agency consultant, Tuesday called Upjohn's actions "outrageous" and "unconscion-

The accusation was made on the second day of an agency hearing requested by Upjohn, which is trying to overturn a 1978 ban on the hirth control drug. The contraceptive. called Depo-Provera. can be injected to last for three months and is widely used to developing cil, the important umbrella body nations. It is also used in some Eu- for Palestinian groups, is expected ropean countries.

Spokesmen for Upjohn and the agency said that what was needed were carefully controlled studies cit hacking to Jordanian-Palestinithat follow women who take the an participation in the talks. drug over a long time. Both agree that no such studies exist, although ment of readiness to talk, perhaps the World Health Organization is after another meeting with Mr. now doing one.

attitude has been provided to U.S. officials by Senator Paul E. Tsonwho bas returned to Washington after talks in Jordan and Israel. Mr. Tsongas found Hussein talking about making a statement on his readiness to enter the negotiations. but waiting for some confidencebuilding move by Israel as well.

Prime Minister Menachem Begin unanswered. of Israel, in talks with Mr. Tsongas, took the position that he gesture such as a temporary halt in would do nothing that would undercut the principle of unlimited Jewish settlement on the West Bank. But Mr. Begin did not rule oul a temporary moratorium of three months or so that was suggested by Mr. Tsongas.

President Ronald Reagan, to his speech outlining his Middle East initiative on Sept. 1, called on Israel to impose a freeze on further settlements, thereby implying an in-definite halt. But officials now state that it may be more practical to seek a limited cessation in settlements that could be renewed if the negotiations showed signs of prog-

The Saudi Arabians have privately given their backing in principle to Jordan's joining the negotiations on Palestinian self-rule, in order to block Israel from annexing the area. But the Jordanians want a firmer commitment, including a pledge that the hundreds of millions of dollars of Saudi assistance will continue. So far, they have not received it. U.S. diplomats are privately urging the Saudi Arabians to be more supportive than they have been so far, officials said.

This is the timetable being discussed in Washington:

• The deadlock in the Israeli-Lebanese negotiations will have to be overcome and steps agreed to on removing Israeli, Syrian and PLO forces from Lebanon, Philip C. Habib, the special U.S. envoy, ble position.

 The Arab League, which has sent delegations to various coun- in Geneva he said. tries, will send a delegation to Britain on Feb. 7, it was announced Tuesday. This will be the final mission, and afterward the Arab League can be expected to meet and discuss Jordan's joining the negotiations.

• The Palestine National Counto meet oo Feh. 14, either in Kuwait or Algeria. The United States hopes it will give at least ta-

 Hussein would make his state-Reagan in Washington. The two men conferred just before Christmas, and the U.S. side was encouraged by the talks.

• Mr. Begin would come to Washington for his long-delayed meeting with Mr. Reagan, in which steps toward resuming the Palestinian talks would be discussed. The Americans are hoping that Mr. Begin might agree to a temporary "Depo-Provera comes up as a moratorium as the result of Hussein's statement and Mr.

# WORLD BRIEFS Antitrust Award AT&T Antitrust Award Rejected

CHICAGO (AP) - A federal appeals court Wednesday threw. jun's \$1.8-billion antitrust award against the American Telepho Telegraph Co. in a lawsuit alleging that the world's largest corpor had tried to monopolize the long-distance telephone market.

However, the 7th U.S. Circuit Court of Appeals upheld some court's findings that AT&T engaged in antitrust activities and sequences.

# U.S. Responds Warily To Soviet Missile Bid

said Wednesday that a reported rope but also all of the SS-20 rope could be a step in the right

Assuming that press reports of separate meetings of high Kremlin officials with a U.S. congressional delegation and a West German opposition leader represented a firm Soviet offer, the officials said it was not clear whether new SS-20 missiles were included along with older SS-4s and SS-5s that were being phased out anyway. The officials

requested anonymity. Even a firm commitment to scrap some SS-20s would not meet all the conditions for U.S. agreement to reduce or cancel the 572 cruise and Pershing-2 missiles it plans to deploy in Western Europe starting late this year, they said.

Yun V. Andropov, the Soviet eader, proposed last month to reduce medium-range missiles on Soviet territory in Europe from around 500 to 162, matching British and French forces, if the plans for installation of U.S. Pershing-2 and cruise missiles were dropped.

But he did not say if SS-20s, SS-4s and SS-5s in excess of that number would be dismantled, put in mountains in Soviet Asia.

Washington has offered to drop plans for deployment of the U.S. missiles if Moscow agrees to scrap all its medium-range weapons, and the White House said Wednesday that this so-called "zero option"-remained the U.S. position.

Larry M. Speakes, the White House deputy press secretary, said that any plan allowing Moscow to retain some of its medium-range missiles would leave it with an advantage over the West because it now has no comparable weapons. We will be discussing these So-

viet ideas when the talks resume"

esent.

President Ronald Reagan announced Mrs. Fleckler's appointment after accepting a letter of resignation from Mr. Schweiker, who had been in Mr. Reagan's cabinet

since he became president.

Mr. Schweiker is to become head. of the American Council of Life Insurance an umbrella group that
acts as a representative for major
life insurance companies in the
United States.

Mrs. Heckler, 51, was the second woman named to the cabinet in the new year. Elizabeth H. Dole, a former aide in the Reagan White House, was named transportation secretary Jan. 5. She replaced Drew L. Lewis, who accepted a job as head of Warner-Amex Cable Com-munications Inc., a eable ielevision

The resignations of Mr. Schweiker and Mr. Lewis apparently did not stem from any political disputes within the administration. Both men and White House aides said the two were offered hicrative positions in private industry that they felt might not be there in two

years.
Mr. Schweiker is to earn a salary of well over \$100,000, as against his cabinet salary last year of \$69,630. On Dec. 18, the salary

rose to \$80,100.

The addition of women to Mr. Reagan's cabinet occurs at a time when opinion polls show the president unpopular with women voters for his continued stand against the proposed Equal Rights Amendment to the Constitution and his

budget cuts in social programs.

"It is with deep regret that I have today accepted the resignation of a trusted adviser and able administrator," the president said as Mr. Schweiker and Mrs. Heckler stood

Robert Cambell, a Windsor businessman, observed recently: "I always tell visitors from the States that what we have in Canada is pretty much what they would have if Washington had lost at Valley

The writs of assistance were first introduced to North America in 1763 in an attempt to strengthe the colonies' respect for the British crown. Instead, they served to stimulate dissent. James Otis's claim that the writs violated the British common-law principle that "a man's home is his castle" was rejected by a Boston court, and it was not until the United States came into being that the practice ended in the 13 colonies.

In Canada, where there was no revolution, the writs continued to be issued until 1976, when the gov-ernment announced a temporary ban on new writs of assistance while leaving in force the 332 writs then in possession of investigators.

A year ago, the Canadian government for the first time ensirined a Charter of Rights in its new constitution, and though govern-ment justice officials have called the retention of the writs necessary. A Bührle spokesman. Erwin the issuance and use of them has Buklar, refused comment, other been increasingly challenged in the

# **Mission Impossible**

Looking back over 10 years of planning for the MX missile, it would appear that the last thing needed is another study. A mere 34 possibilities for basing it bave already been evalu-ated. Yet in truth what is needed is more study, not less. Congress was prudent to order a broad new presidential report: President Ronald Reagan has now assigned this mission to another study commission, but given it too

What Congress asked for was not only another review of MX basing but a review of the entire program to modernize strategic forces. The new Commission on Strategic Forces, headed by General Brent Scowcroft, is to examine land-based ICBMs and basing alternatives as well as examine alternatives to MX, but has been given only six weeks to do it. Can valid new proposals be expected in these circumsiances?

When Congress voted last month to bar production of the MX until a permanent basing mode is approved, it did not ask for the president's new proposal by March 1. It asked

for a proposal no earlier than March 1. What is the rush? A year ago, after Mr. Reagan abandoned the Carter administra-tion's "racetrack" system, Defense Secretary Caspar Weinberger wisely sought three years to re-study basing alternatives. But with Congress pressing bim, Mr. Weinberger establish-

ed two successive study panels.

A technical team headed by Charles Townes, a Nobel physicist, reported that it could find no practical system for basing the huge MX on land that would assure survivability. It suggested study of an air-based sys-tem, aboard new "Big Bird" planes. But the Big Bird concept met Air Force and congres-

sional opposition. A second Townes panel last year gave qualified support to an Air Force scheme for clustering 100 MX missiles in a dense pack" of superhard silos. The president proposed that, but then it became known that Mr. Townes bad technical reservations; so did three of the five chiefs of staff. Prudently, Congress withheld approval.

Given only six weeks, the Scowcroft comnission may be tempted by an obvious quick fix. Combining Carter and Reagan schemes. Harold Brown, the former defense secretary, has proposed adding 900 empty silos to dense pack. The problem with that is evident from a question: What if the Russians built 1,000 superhard silos, claimed 900 were empry and insisted they could not be quickly filled with spare missiles? The United States would have to assume they could. And that would probably end arms control possibilities forever.

The Scowcroft commission would start much more productively by acknowledging that even with a one-year delay in MX produc-tion, the first missiles would be available months before the first silo was ready. What is needed is a thorough study of all strategic forces, not just MX.

Why think only of huge multi-warbead ICBMs of uncertain survivability but with a first-strike capability that tempts the enemy's preemptive attack? Would the Navy's invulnerable Trident-2 missile not be better? Or why not turn to smaller, more mobile single-

warhead missiles? The MX may or may not be a missile impossible. But to give General Scowcroft's panel only six weeks to do a proper job is a mission

- THE NEW YORK TIMES.

# **Arsenic and Old Hair**

History is the art of inferring what happened in the past. Most of the historian's witnesses are dead; what he must work with is the incomplete written record, in which the gaps may be more truthful than the documents that have been left behind. But this subtle art is

now threatened with confusion. Take the death of Napoleon. As any historian could tell you, the French emperor died in exile on the remote island of St. Helena in 1821 from stomach cancer and a perforated ulcer. So say the contemporary documents. which there has been no particular reason to doubt. But then the busy arm of science reached in and interjected a wholly novel kind of evidence. New techniques for measuring elements in microscopic amounts reveal bands of arsenic in Napoleon's bair. Forensic experts

assert Napoleon was poisoned. If any historians yielded to the new evidence, they did so prematurely, it turns out. The thesis has been challenged by two articles in a recent issue of Nature. Two British scientists note that the emerald greens in 19th-cen-tury wallpaper were made from a copperarsenic pigment, which could be converted by a fungus into a deadly arsenical vapor. Having discovered a scrap of Napoleon's St. Helena wallpaper in an old family scrapbook, they say

it contains enough arsenic to cause illness, but

not death. "Conspiracy theories need not be invoked to explain arsenic found in his hair." they conclude with a touch of scorn.

A second article reports on the analysis of a lock of Napoleon's hair discovered in Toronto. It contains quite normal amounts of arsenic. We therefore conclude that Napoleon Bonaparte did not die of chronic arsenic poison-

ing," say its authors. Now the original advocate of the poisoning theory, Sten Forsbulvud, of Goteborg, Sweden, disputes both groups of critics. He insintiates doubt about the authenticity of the Canadian hair sample. As for the British scientists. be thinks their theory is off the wall, Napoleon was given intermittent doses of arsenic - as shown by the bands of poison in his hair - to make it seem that he was suffering from some chronic disease. The coup de grace, says Mr. Forshufvud, was a potion of bitter almonds

and calomel given just before his death.

How can the historian balance the new kind of evidence against the old, or cope with the intrusion of experts who cannot agree among themselves? Each age reinterprets the past, but new perspectives, not the evidence of an alien methodology, are the customary criteria of revision. If forensic experts are let loose on the

stuff of history, how will anything be resolved? - THE NEW YORK TIMES.

# Other Opinion

#### U.S.-Soviet Staredown

What is Yuri Andropov to make of an administration that puts down the Soviet Union as an "economic basket case" and threatens to bring it to its knees by matching it dollar-forruble equivalent until it cracks — and then gets itself into such a financial hole that it has to start easing off before the big defense build-

up has barely begun? What if, having boldly gone eyeball-to-eyeball with the Soviet Union on military spending the United States is perceived to have been the first to blink?

Given the mixed readings we get from the Soviet expens on the new powers-that be in the Kremlin, you could conclude that the Russians might see in any slackening of American rearmament a show of weakness that would encourage a tougher Soviet line either in arms control negotiations or across the board. Or Andropov and Co. could choose to see a U.S. flexibility and respond to it in kind.

Much will depend on the degree to which Ronald Reagan can find a way to propound a foreign policy in language, and with a logic. that fits American resources and the fiscal realities. His recent expression of interest in testing the sincerity of the new Soviet leadership

- Philip Geyeliu in The Washington Post.

#### Thwarting Reagan

Members [of the new Congress], armed with exira money this time around, will be more prone to take on the White House this year.

The rationale for Democrats and Republican pretenders to the throne is simple: If Ronald Reagan can be thwarted at every turn, the

president won't run in 1984. The administration may not have all the answers, but this kind of maneuvering is exactly what the country does not need. Ambition may have gotten each member into the 98th Congress, but a spirit of compromise is what makes politics work. The enemy is not Ronald Reagan. It is economic stagnation, congressional spending growing at a 7-percent annual rate and a several-headed monsier known better as the Communist empire.

- Clanon-Ledger (Jackson, Mississippi).

#### Fortress Greece

Only last month did Greece's first Socialist government finally begin to bite the bullet. It did an about-turn on wages, replacing the generosity it had initially shown to its union supporters with a tough incomes policy. Now the devaluation heralds a more realistic exchange rate policy that will satisfy exporters but could add around 4 percent to consumer prices.

The latest Greek moves underline the urgency of helping Athens overcome the problems it manifestly faces. But much of the remedy lies in Greece's own hands. For it has still failed to take full advantage of the possibilities for European Community financial assistance open 10 it. It is here that the emphasis should be placed rather than resorting to a Fortress Greece, which is neither compatible with EC membership nor in the country's own interest.

- The Financial Times (London).

#### 1933: Optimism on Depression

NEW YORK — Striking ooe of the most optimistic notes yet sounded. Charles E. Mitchell, chairman of the National City Bank of New York, yesterday reviewed the Depression in this country. He pointed the way to world recovery through the cooperation of banking facilities of various countries, and called for the re-establishment of a stable relationship between the dollar and foreign currencies through international readjustment. He said: "The declining volume of business over the world since 1929 has been clearly due to the fact that many commodities and services have not been valued to each other upon the same terms as in the past. Gradually these malad-justments are being corrected."

# WASHINGTON — George Shultz com-bines broad experience at the highest

levels of government and business with the disciplined precision of the trained economist. A visitor comes away with a sense that the secre-tary of state carries in the back of his bead a map of how to traverse safely the danger zone that lies ahead. These seem to be the main contours of that map.

Economic recovery in the United States is the salient feature. Not only for this country but for Europe and Japan and the developing countries, too. Mr. Sbultz has been spending a good chunk of his time on domestic economic problems. He was a major architect of the budget consensus that now groups around the president a united cabinet and White House staff. The basic theme is to go for gradual recovery beginning this year. That means relative passivty about budget deficits in 1983 and 1984.

Prospects for an early turnaround seem good to Mr. Sbultz. He thinks the economy is currently so weak that the Federal Reserve Board can pour money into the system without much risk of reigniting inflation. He believes that once recovery begins, the deficit projections will drop sharply. Still, be wants to put in place now a program to pare even further deficits in

Once recovery begins in the United States. Mr. Sbultz thinks it needs to be sustained by complementary action in other advanced nations. He hopes to keep trade expanding. He feels that a smoothing out of some of the wilder currency swings — notably between the dollar and the yen—is critical to continued growth in world trade. In that connection, he has high hopes for broader cooperation with the new Japanese prime minister, Yasuhiro Nakasone, whom he considers to be an articulate and out-

The impact of slow growth on the developing countries also concerns Mr. Shultz. He believes that nations that borrowed beyond their resources must accept discipline now. But be talks of the "paradox of austerity" — a term adapted from John Maynard Keynes's phrase, "the paradox of thrift." Just as individuals can save so much that consumption lags and depression ensues, so, if all countries practice austerity, trade will languish and some nations dependent on exports can go under. Mr. Shultz seems to believe that the present arrangements

By Joseph Kraft

1985 and 1986, by higher taxes and cuts in so-cial and defense spending.

for bailing out debt-ridden nations are too ad hoc. He speaks of changes that will put the hoc. He speaks of changes that will put the saving of Mexicos and Brazils and Yugoslavias

on a more systematic footing.

Apart from working with the allies to promote recovery, Mr. Shultz believes in a joint approach toward the Soviet Union. He thinks that, with the thorny issue of the Siberian gas pipeline cleared away, it will be possible for the United States and the Europeans to concert strategy on trade and credits and the export of technology to the Soviet Union. Within that general context he sees the prospect of arms

control accords with Moscow.

The proposals already advanced by the United States — notably the "zero option" on intermediate-range missiles based in Europe - are more like opening bids than final positions to Mr. Shultz. But he wants to bargain carefully. He is loath to give wide-ranging authority to negotiators in the field, and he is wary of mov-

ing a pebble and starting an avalanche.

There will probably be no change in the U.S. negotiating position until after the West German elections on March 6. Then Mr. Shultz is likely to go for a compromise on intermediate-

The Shultz Road Map: Perils Ahead, but Also a Pativille State of the S range weapons at a level above zero. But he keep zero as a final target, while moving haps at a summit session, from focus on the weapons to reduction of strategic missiles.

Slow progress is the outlook in the left.

approach that moves first for a quick se ment in Lebanon and then for an all-out d on the problem of the Palestinians.

on the problem of the raissumans.

Instead, be wants to keep both sets of negations moving in tandem. That is why Asis sador Philip Habib, instead of setting is command post on the spot, keeps shutt back and forth between the Middle East the United States. But negotiating with many different objectives is a step-by-stepcess. Mr. Shultz acknowledges that the big.
— notably the emergence of king Hussen
negotiating partner— is still a way off.

I am personally less confident that the realread can be navigated without continue.

ahead can be navigated without serious car ues. Still, because the Shultz map shows p as well as a path through them, he seems ther optimistic nor pessimistic. Rather, as marked contrast to the laid-back Caffe style of so many in the Reagan administrati he seems determined.

Los Angeles Times.

## Churchillian Echoes of Implacability

WASHINGTON - Arriving propitiously this Sunday and running for seven more Sundays on American public television is a politi-

cal drama. Here is a precis: The nation is suffering a severe slump that has depressed government revenues yet strengthened the case for ameliorative social spending. A consensus across the political spectrum insists that military spending must be cut to fund compassionate programs. But one stiff-necked politician of notoriously strong convic-tions — years ago they caused him to change parties — objects. He is no longer young, and critics accuse him of nostalgia for a simpler age. He is a great communicator but enlightened opinion holds that his rhetorical

power is a function of simplicity and anachronistic nationalism. All his weaknesses are revealed in his alarmism about the foreign power to the East. He ignores the events of this century that make that power's policies understandable in terms of its national experience - it suffered much from the World War. Proof of his shallowness, say his multiplying critics, is that he takes seriously that

power's bellicose rhetoric. He is deaf to academic, media and foreign policy elites, who explain that the totalitarian regime's thetoric is a residue of the past, and is less important than the fact that the regime is a fact we must live with. His program for matching that power's buildup dooms the arms control dialogue that must be the source of safety since the development of the ulti-

mate weapon, the airplane. This is a drama about a stubborn man, Winston Churchill in the 1930s.

The Wilderness Years." Early episodes deal primarily with

other matters, such as India. But

By George F. Will

soon the paths of the lion and the jackul cross. Visiting Munich in 1932, Churchill stays at a hotel frequented by the man who came to power in

Germany 50 years ago on Jan. 30. Today Churchill is remembered, reverently, for his implacability, Then, when implacability meant spending money people did not want to spend, he was ridiculed, and execrated as a "scaremonger."

British policy in the 1930s traced a trajectory similar to that of U.S. policy since the 1960s. First it proclaimed British superiority: then it pledged to maintain "parity": then it fell to explaining why Germany's numerical superiority did not really mean British inferiority, and why advocates of military spending were from Houghton Mifflin). It is a time-

moved hy ambition or venality. In the broadcast, Prime Minister Stanley Baldwin says of Churchill: "Talk like that scares people." And it might impede détente with Germany.

Churchill's critics, who included most mainstream politicians, wanted to entrust Britain's safety to arms control talks, not because there was any record of achievement from talks, or because Hitler seemed likely to be tanted by them, but because safety through arms control was the only safety that could be had on the cheap. Deterrence costs money.

Those who wanted to trust Britain's safety to arms control first argued that Germany was not aiming for superiority. Then they argued that the very fact that Germany was spending so much suggested that British rearmament would be matched by Germany. Besides, Germany would bankrupt itself. Sound

When critics of Churchill's rearmament plans could no longer deny or suppress the facts, or impugn the mo-tives of those who cited the facts, they said: Britain's real strength is economic. We must attend to that first. Military spending will complicate recovery, hence it must wait. So said the chancellor of the exchequer,

Neville Chamberlain. Appeasement, said Chamberlain, would free resources for "more cre-ative uses," The message transmitted to Germany, with devastating clarity. was: We are desperate for an arms agreement because we believe we cannot afford to match your arms

Martin Gilbert, Churchill's biographer, has published a book in conjunction with this series ("Winston Churchill: The Wilderness Years" ly study of how a democracy allowed considerations of political convenience and budgetary "necessity" to control defense policy. Churchill's doctrine was: We can afford what we

need; what we cannot afford is to say we only need what is easy to provide. Today Washington is full of persons whose political bravery extends only to ridiculing the steadfasiness of the secretary of defense. Caspar Weinberger, whose duty is to decide what safety demands, and to say so. He is not permitted the luxury of

pandering to wishful thinking. To those who today say that polls prove (in words once hurled at Churchill that there is "no mandate from the people" for more defense spending, Churchill's reply remains unanswerable: "The prime responsibility of any government for the public safety is absolute and requires no

mandate."
The Washington Post.

# Baker's Decision Hold A Warning for Reaga

By James Reston

WASHINGTON — Howard going on here within the Republ ...
Baker of Tennessee, the Re-Party between the conservative publican leader of the Senate, has let it be known that maybe he will not seek re-election in 1984 but that he seek re-election in 1984 but that he

This news sort of slipped out when be was at the family home of his late father-in-law, Senator Everett Mc-Kinley Dirksen of Illinois; and not by accident, Mr. Baker was not available to clarify what it meant. But it probably meant a great deal.

Obviously, it does not mean that tary budget and raise taxes to avo Mr. Baker intends to challenge Mr. \$200-billion deficit in the coming Reagan for the Republican presidential nomination in 1984. But what it probably does mean is that, at 57, the Senate majority leader has no intention of sticking around Washington for the next six years trying to pull Mr. Reagan's chesinuts out of the

Senate majority leader since Lyndon B. Johnson; no less ambitious, but kinder, He will support Mr. Reagan for a second term, if that is the president's desire, and go back quietly and happily to Tennessee to his private life of the law and photography. But if by chance the president decides not to seek a second term, Mr. Baker wants to be ready to make a serious campaign for the Republican

presidential nomination. He trifled with this ambition in 1980 when he ran vaguely against Mr. Reagan, but was trapped between his Senate responsibilities and his ambitions in the primary elections, and it was a disaster. "It was they are in trouble with themse with the primary elections, and it was a disaster. "It was a disaster with they are in trouble with themse with themse." worse than this," be told me some and are losing their best people, time ago. "It was humiliating. If I Senators Baker and Dole, who ever go again, I'll go all the way, and

If this is true. Mr. Baker is not likely to remain as majority leader until the end of his present term, which lasts until the end of 1984, but will have to resign that post this year and begin organizing to win the presiden-

tial primary elections early in 1984. He is being very subtle about this, but he is not the only Republican who is trying to send a message to President Reagan. Senator Bob Dole of Kansas has gone public with his criticism of the president's policies. Representative Jack Kemp of New York has been complaining that Mr. Reagan is being unfaithful to his supply-side economic campaign promises. And all of them are wondering if the president will run again and who will succeed him if he does not. In short, there is sort of a struggle

it might cease to exist as a nation.

Two currents of thought are bat-

tling for primacy in Poland. On the

one hand, there is a sense of helpless-

ness - a feeling that Poles bave been

left alone with no help from outside.

Yet there is also a feeling of hope;

ticularly among young people who more and more are dedicating their lives to change — if not today, at

1908: Twain Takes Five

NEW YORK - Mark Twain appeared in his which the bumble people bad treated him, for Robert Louis Sievenson and he were in agree-ment for once: It was the greatest fame to live in the hearts of the masse

A SPEN. Colorado — Despite the regime's lifting of martial law, Poland is undergoing what could be called a process of "purification" a purge of artists, intellectuals and opposition leaders that may be more dangerous and more far-reaching than anything witnessed in the Soviet hloc since the days of Stalin.

This process is intended to bring about nothing less than the transformation of Poland from a satellite to an outright colonial dependent from a proud, rebellious nation to a powerless, horror-stricken prisoner. To prove itself and to earn acceptance by the new Soviet leadership, the Polish military junta has under-

taken to castrate the opposition - to isolate or expel any potentially dangerous popular leaders.

What is particularly painful to many Poles is that although this process was in all probability initiated by the Soviet Union, it is being im-

plemented by their own countrymen. It is possible that a small fraction of these people were acting under the illusion that General Wojciech Jaruzelski's military regime had no alternative, but there are enough col-laborators, secured either through fear or money or special privileges, to give the impression that the death blow is being dealt by the Poles

The "purification" process has been entrusted to the office of Depu-

ty Printe Minister Micczyslaw Ra-

kowski, who for years has been re-garded in the West as being repre-

sentative of the liberal wing of the Communist Party. His office uses a variety of means. In some cases, individuals deemed troublesome are simply informed that they have no future in their country. They lose their jobs, the ration cards they use to get basic harassed, their children are deprived

magnanimous offer is made: The individual will be issued a passport provided he promises not to return. A considerable number of university professors, writers, actors, film directors and others have already heen encouraged to emigrate in this way — depriving Poland of its cultur-al leadership. Meanwhile, many of

of educational opportunities. Then a

them never adapt to the foreign countries where they choose to live. Another of the junta's methods is to draft people into the armed forces. A sizable number of men and womer released from detention when martial law was formally ended Jan. I were mediately called to report to special army units. The discipline in these units is known to be unusually harsh, and more heavy work is required of them than of ordinary units. Nor do those drafted into such units have any way of knowing how long their service will be required. It is an open-ended proposition - an-

Cultural institutions, which often play a significant political role in Po-land, have also been hit by the regime. The directors of two major theaters in Warsaw — the Dramatic Theater and the National Theater — have been fired, and the Dramatic Theater has been closed. Key administrators of the Warsaw National Museum have lost their jobs. Professional organizations of writers, artists, architects and others have been disbanded. The intellectual underpinning of the Solidarity movement has are in a position to bid for real estate still behind hars, some accused of tives in Turkey.

other form of detention.

capital crimes against the state.

# Warsaw's 'Purification' Process Could Rival Stalinist Purges

By Zygmunt Nagorski sistance is bound to continue: Solidarity lives and works underground in practically every Polish town.

But the regime is armed with many weapons. Money is one of the most widely used; terror is the most potent. And in spite of the powerful undercurrent of resistance, Poland may have little chance of escaping Czech-oslovakia's fate. When a nation's cultural roots are systematically cut and its most creative members are eliminated, then it faces the mortal danger

#### Fewer Jews Left Russia in 1982

GENEVA — Migration of Jews and Armenians from the Soviet Union dropped sharply last year, while slightly more Vietnamese were allowed to leave Vietnam than in 1981, according to the Intergovernmental Committee for

Armenians and other family reunification cases dropped to 400 from 2,450 in 1981, the committee said

Tuesday.

The number of Vietnamese allowed to emigrate legally, as opposed to illegal departures by the so-called "boat people," rose to 9,770 from 8,530 in 1981, it said. The organization also dealt with 15,335 Polish refugees, including about 640 former martial law detimes as many as in 1981.

## Hitler Anniversary Causes Berlin Row

BERLIN - Controversy has arisen in West Berlin over events marking the coming to power of Adolf Hitler 50 years ago this month,

The centerpiece is an exhibition mounted by West Berlin's cultural council, entitled "1933 Roads to Dictatorship, showing events leading to Hit-ler's appointment as chancellor on Jan. 30, 1933, and the conse-

The council's stated aim for its program of events was to show that much of the hlame for Hitler's rise lay with mid-dle-class apathy and capitalist profiteering, and to warn against a repetition. But West Berlin's Senate,

with a conservative majority. felt the events had a leftist hias and thought too much money had been allocated to fringe groups. The Senate itself will mark

the anniversary with a solemn ceremony in the Reichstag, the parliament building that was burned in 1933 and is now an exhibition center. But a long and bitter dispute took place in

the city parliament over other commemorative events.

Several of the cultural council's events were refused finance, including some backed in the city government by the radical Alternative List party. such as projects by homosexual groups and exhibitions on Nazi activity in AEG and Siemens, the city's two higgest employ-ers. Some of these will go ahead

At the entrance to the cultural council's exhibition, a picture by Gernot Bubenik, 40, a Berlin artist, depicts scenes from modern West Berlin life as if on a window, shattered to reveal dark, menacing shapes with Hitler in the middle, rising from hurning buildings.

Black-and-white photographs line the opposite wall showing the troubles of the 1920s and 1930s, with the strikes, anarchy and repression that led to the

# Trade and Investment Opportunities in the ASEAN Countries

- February 9, 10 and 11, 1983 in Singapore

The International Herald Tribune invites you to meet

the ASEAN Government leaders at an international conference on:

In the midst of an international economic crisis, Indonesia, Malaysia, the Philippines, Singapore and Thailand, the five members of the Association of Southeast Asian Nations, continue to show growth rates of 5% to 7% annually.

Their rapid economic growth has led to a major increase in their imports from the United States, Japan and Europe, and ASEAN is expected to be the most rapidly growing market for the industrialized countries through the 1980's.

Abundant natural resources, an increasingly skilled and competitive labor force and political stability make the area particularly appealing to companies seeking to

expand their activities internationally. Moreover, the ASEAN countries have been actively encouraging foreign investment in recent years.

The International Herald Tribune's conference on "Investment and Trade Opportunities in the ASEAN Countries" will be an unprecedented opportunity to hear and question in a single forum the government officials who are responsible for formulating the trade and

investment policies of these five countries. The delegation from each country is listed below. A spokesman from each of the three major trading partners of ASEAN — the United States, Japan and the EEC has also been invited to participate.

INTRODUCTION TO ASEAN

· H.E. Mr. Chan Kai Yau, Secretary General of ASEAN

Mr. Masao Fujioka, President. Asian Development Bank

# Dramatic Improvement of TV Image Expected

By Wayne Biddle New York Times Service
NEW YORK — With electronics getting smarter and friendlier every day, whether in the guise of personal computers or bionic organs, the friendly nid television set has stayed essentially un-changed in the United States since the advent of color broadcasting in the 1950s. But this long period of somnolence may end during the '80s. The change will be not so much a matter of program content

- a social problem beyond techno-

logical considerations - as an evolutionary leap in equipment.

The most dramatic developments in the offing, foreshadowed by somewhat improved reception already available in Europe, will bring movie-quality images to the home television screen. The technological changes remain in the experimental stage. But most experts believe that enough progress has now been made so that, within the decade, television pictures will be transmitted for reception in homes, as those shown now from commercial 35-millimeter movie film. And it will be possible to project such pictures — in large size, clearly focused and with what the industry calls "high definition" — on an ordinary living-room, office or class-

For the most part, television engineers have learned bow to make the necessary new equipment. The problems have been the cost and the industry's inability to agree on neral technical standards for high-definition television broadcasting. The technology requires a more information-packed signal than in current broadcasting, and the television industry will have to move deftly if it is to obtain rights to the last available space in the spectrum of broadcast

bands for this "larger" signal.
Will it be worth the trouble? To a quiz-show watcher, perhaps nnt. But anyone who has seen "2001, A Space Odyssey" on a movie screen and then on a 12-inch portable knows the impact of scale, its ability to induce a kind of awe and

Since 1941 in the United States, a standard television picture has been created by 525 horizontally scanned lines displayed at 30 frames a second. In 1967, European countries, which were late in adopting their standard, were able to take advantage of technical development to adopt a somewhat higher level, 625 lines. Like a movie, the television set presents a of the electromagnetic frequency sequence of still shots shown rapidly enough to trick the eye into signals with minimum interference, perceiving motion. But unlike a the Federal Communications Commovie, television creates the image mission has assigned for each chanin a series of thin horizontal slices, nel a slot 6 megahertz — 6 million While tinkering with cold-resis- peratures as low as using a beam of electrons that cycles a second — wide. # Indian Rock 'Calendars'

DOSTON — Prehistoric Indians
left a legacy of solar observatories in the Arizona desert — a series of precise rock carvings that chart the movement of the sun.

Dr. Robert Preston, an astronomer at the Jet Propulsion Laboratory in Pasadena, California, and his wife, Ann, said they have studied 19 carvings — some nearly 3,300 years old — and found that all marked the summer and winter solstices and the equinoxes.

The Prestons, who presented their findings at a meeting of the said they compiled precise compass measurements at all 19 sites during 18 months of research.

In many cases, a dagger of sunlight runs precisely on the edge of a single carved circle at both winter and summer solstice, or a shadow bisects a spiral at dawn on the summer solstice, Dr. Preston said.

"Every society tries to put order in their universe. We do it with science and this was their form of or-

The summer and winter solstices are the longest and shortest days of the year. The equinoxes mark the days at the beginning of spring and autumn when the day and night are of equal length.

## **Hostility and Hearts**

By Robert Locke The Associated Press

UCSON, Arizona — People quick to anger may be quicker to die, says a Duke University scientist who believes hostility can harm the heart as much as smoking or high blood pressure.

science writers sponsored by the American Heart Association.

Hostility and anger, he said, may be the dangerous key componen of the heart attack-prone Type A personality — people who also are characterized as being highly ambitious and impatient. Type A personalities are about

twice as likely to die of heart disease as Type B people, who are more relaxed and willing to take life as it comes, he said. "Type A is now generally regard-

ed as a [heart disease] risk factor of about the same magnitude as cholesterol, hypertension and cigarette smoking," he added.

Half the U.S. population is con-idered Type A, Dr. Williams said, far too many to subject to preventive medical or psychological care. To narrow that group, he said, "we have to find out what it is in the Type A person that is really re-

sponsible for the increased risk." The research involved a measurement of hostility included in a than we now have"-to-prewidely used personality profile, the heart disease.

# WALL STREET WATCH

By EDWARD ROHRBACH

#### Takeoff by Boeing Expected, But When Will It Land Again?

Boeing's shares have been climbing sharply in price, hitting new highs this week, despite a strong head wind. Expectations are that the aero-space giant, which manufactures two divides of the world's commercial aircraft, will report 1982 profit of only about half what it carned the year

Investors, of course look mainly ahead and analysts are predicting a respectable turnaround for Boeing in 1983. But what really separates the buyers from the sellers of the stock are forecasts of how much it is going

Helping power Boeing upward had been Drexe! Burnham's newly reaf-firmed recommendation of "aggressive purchase," a suggestion that analyst Alan Benasuli has been making for months. He predicts earnings of \$3.75 a share this year and \$4.25 in 1984. Paul Nisbit of Prudential/Bache sees \$3.15 worth of sunshine this year but dark clouds gathering again over Scattle in 1984, with Boeing's earnings projected to spiral back below \$3 a share, about

what the company is expected to report for 1982. "The stock is ahead of itself and 'There's a very, very should be sold," he maintained. slow order picture "There's a very, very slow order picture for all but Boeing's est airliner, the 737."

Drexel Burnham calls the 737 smallest airliner.

program "established and very profitable," but what it likes lately about the stock is the recent decision by Congress to continue funding the Export-Import Bank at the same \$4.4 billion level it has been. This event is extremely important for Boeing's competitive position versus Airbus in international markets, particularly the Far East and Africa." The two brokerage bouses at least agree about Boeing's prospects be-

ginning in 1985, Bache's Mr. Nisbet expects "solid, sustained growth" then and Mr. Benasuli is projecting earnings of \$6.50 to \$8.50 for the Merrill Lynch's Edmund Greenslet, who rates the stock a lukewarm "okay to buy," is forecasting 1985 earnings of \$5.75 for Boeing, against

\$3.50 this year. Among others who follow the stock, Shearson/American Express recommends it for purchase while Paine Webber is neutral.

"I'm very optimistic about Wall Street," said Nicholas Krul, managing director of Gulf & Occidental Investment Co. of Geneva. "But failure of

the stock market to stage a significant correction since the big rally got under way four months ago makes me nervous over the short term."

Mr. Krul sees stocks gaining 15 to 20 percent in 1983, though he observed. "It's a lot easier going up from 780 than 1,000" on the Dow Jones industrial average.

He predicts that metal mining stocks will outperform the market. Minerals & Resources, Asarco, McIntyre Mines, Phelps Dodge, Noranda Mines and Ereeport McMoran are the favorites.

"They've all been badly battered in the recession," he said, "and still are low-priced despite recent gains."

#### Chemicals Attractive

The chemicals, also depressed cyclically, are another attractive group, he said. He named Monsanto and Union Carbide.

"As investors focus on cyclicals over the ensuing 12 months," A.G. Becker Inc. says, Nucor, "perhaps the lowest cost steel producer in the U.S., is attractive for purchase." Noting that the company has been profitable in each recent quarter, Becker thinks that Nucor has capacity n place to generate earnings of \$20 a share in 1985, compared with a

Value Line's highlighted stock this week is Procter & Gamble, rated tops in safety as an investment because the home-products company has not suffered a down year in earnings since 1952. P&G is also featured by the advisory service for its relative year-ahead price performance potential. Value Line's recommended "timely" electric unilities are Central Illinois Light, Florida Power & Light and Wisconsin Electric Power.

Wilson Foods is recommended to "risk-orientated" investors by Donaldson Lufkin & Jenrette, which projects n "dramatic turnaround" for the largest U.S. pork producer. Donaldson also likes La Quinta Motor larges.

Getty Oil, described as the "most mexpensive" U.S. integrated oil company, also is strongly recommended, as is Golden Nugget. DJK notes Atlantic City gambling revenues jumped 35 percent in December.

while Golden Nugget's take there doubled.

The prestigious Bank Credit Analyst, published in Montreal, calls the long-term outlook for Wall Street "extremely favorable" but warns investors to anticipate "significant corrections in this bull market." The reason: "Now the institutions are all in the market and behave like the proverbial "odd-lotters," chasing markets up and dumping on the way

Wall Street always gets its priorities right, at least if you grant that the business of business is business. Merrill Lynch, in a recent update on the new arthritic drug Ridaura (made from gold, incidentally), writes: "As we have commented many times on Smith Kline, this could be a very

important new drug for the company, and for patients.

Analysts at Paine Webber Mitchell Hutchins have nominated 10 candidates for the best business strategems of the last year: Phibro's acquistion of Salomon Brothers, Johnson & Johnson's handling of Tylenol case, IBM's personal computer, Coleco's Coleco Vision, Citicop's move into California by buying an S&L, Sears' acquisition of Dean Witter and Coldwell Banker, Woolworth's closing of Woolco and divestiture of Woolworth U.K., MCA's production of "E.T.," the Justice Department's dropping of the IBM antitrust suit, and Mesa's tendering of Cities Service theoret to Oreidental Batterlaum. vice shares to Occidental Petroleum. International Herald Tribune

# **Dow Gains** — To 1,100, Then Falls

NEW YORK - The Dow Jones industrial average surpassed the 1.100 mark for the first time in its history Wednesday before the market suffered a reversal that left

The Dow average hit 1100.17 at about 2:30 P.M., showing a 16.38 point gain on the day. But selling set in immediately afterward and the average finished the day with a decline of 0.18 point, to 1,083.61.

The rest of the market continued much stronger than the Dow, how-ever. Advancing issues totaled more than 1.100, compared with declines of about 500. Volume widened to about 109 million shares from 98.3 million Tuesday.

"Just hitting 1,100 was enough to set off selling," said Chester Pado, an analyst at G. Tsai & Co. "It's a very significant barrier."

Analysts noted that the market's rally accelerated when IBM hit 100 early in the afternoon. "Round

numbers always cause a lot of excitement in the market." Mr. Pado The Dow should still break the 1,100 barrier, the analyst said, but

it may go through a few days of correction before doing so. Monte Gordon of Dreyfus Corp. also said that, although the market not yet prepared to stay above 1.100, it still retains considerable buoyancy. "Hopes have been reinforced that there will be an economic recovery soon and that there will be a sbarp improvement in the quality of earnings because so many companies became more efficient during the recession," Mr.

Gordon said.

Blue chip and technology stocks were the big winners, although most closed considerably below their highs for the day. IBM climbed as high as 100% before pulling back to 98%, up % in very heavy trading.

General Electric also hit 100 at

one point but finished at 97½, off ¼. AT&T rose ½ to 64½, Westinghouse 1½ to 43½, American Can 1/4 to 33% and Minnesota

Mining % to 78%.
Digitial Equipment gained 2% to 98%. Teledyne 6% to 140%. Tandy 1 to 49; Cray Research 3 to 39½ and Data General 1¾ to 44¾, Alcon fell ¾ to 33¾, Last week

the stock hit a 12-month high but analysts said the sbarp upturn was excessive considering the company's earnings prospects. Woolworth dropped 1% to 24%

following the news that its president and chief operating officer,

alyst of Herzfeld & Stern, com- tries. mented that the stock market "is At the end of October, the 146looking for a correction and lower natioo fund had \$26 billion of interest rates. Mr. Ackerman said lendable resources. Since then it investors were concerned that interest rates still were not low loans to Mexico, Brazil, Argentina enough "to sustain the market's and Chile. Such other countries as

economic recovery in general." Other analysts noted that in the bull markets in history.

' said David Polen, chairman of a New York investment firm.

Computer Log Check Found Fed Data Theft

Toshinori Watanabe, head of Dynax and one of Japan's new software entrepreneurs.

# Japanese Pursue Software

By Steve Lohr New York Times Service

TOKYO — The image of the kind of person best-suited for creating software is hardly in the Japanese mold: the hirsute non-conformist, working alone, fiddling obsessively with his algorithms.

But top corporate and government officials in Japan, where teamwork and cooperation are a hallmark of industrial success, are making a major effort to catch up with the United States in the development of computer software, the electronic instructions that tell computers what to do.

"He who controls software controls the world," said Tadahiro Sekimoto, president of Nippon Electric, which has been putting greater emphasis on software development. While Japanese execu-tives acknowledge that achieving that goal is no easy matter, they do not consider it impossible.

"I don't deny the individualistic aspect." said Katsusada Hirosei, a senior official at the Ministry of International Trade and Industry, "but this in-dustry is basically the same as others. And the

characteristics that have served Japan well in the past in its rapid industrialization will work in this industry, too. Software is like any other product."

The officials are among the first to admit the United States is clearly ahead and that Japan may have some trouble closing the gap. But they seem confident that software is an industry in which Japan can repeat its past successes in steel, automobiles and semiconductors.

Accordingly, the full arsenal of government and industry hacking in Japan is being directed at software development.

The trade ministry is guiding a five-year project intended to create new software for operating systems. Two key objectives are to develop new programming technology and to make Japanese-language programs.

As usual, the amount of money involved is not great. The total amount estimated for the project.

now in its third year, is about 44 hillion yen (\$192 million), with half coming from the government (Continued on Page 9. Col. 1)

# 2 Reports Indicate Economy in U.S. Continues Weak

ment released two reports Wednes-day indicating that the U.S. econo-

my remains weak. The Commerce Department said that for the second straight year U.S. business executives are planning to cut spending for expansion

and modernization. In a separate report, the department announced that retail sales last month fell 0.4 percent from November to a seasonally adjusted total of \$92.26 hillion in December. The department also revised November's figure to an increase of 2.6 percent from the 2.3 percent gain reported initially. December's sales were up 6.6 percent from the same month of 1981, the depart-

The report on capital spending predicted an inflation-adjusted drop of 5.2-percent from the 1982

Government officials and private economists had not expected capital spending to show much re-covery before business in general starts to improve from recession levels. But the size of the decline in the new estimate seemed to show that husiness confidence is at a lower level than many analysts had

The planned reduction in 1983 spending would follow a 1982 decline now estimated at 4.8 percent. downward to end up with the large The 1982 reduction had been the overall decline expected for the first since the 1975 recession.

Wednesday's report said surveys in November and December found that executives are planning to reduce total spending on new plants and equipment 1.3 percent to a to-tal of \$315.7 billion this year. That

Compiled by Our Staff From Dispatches amounts to a 5.2-percent decline WASHINGTON — The governable after adjusting for inflation, the re-

Before adjustment for inflation. spending declined 0.5 percent in 1982, according to preliminary esti-

Real capital spending increased 0.9 percent in 1980 and 0.2 percent in 1981.

More than a year ago, the Reagan administration was saying that capital spending was likely to help push the nation out of the recession, especially in light of legis-lation allowing businesses more favorable tax treatment for expansion or modernization.

But by the middle of 1982, government officials were saying that the recovery in capital spending was likely to lag behind recovery in the overall economy. The decline in such spending would have been much worse, they said, without the tax legislation.

A previous Commerce Department survey, taken in late October and November, found that executives were planning spending re-ductions of 0.4 percent for the first quarter and 0.2 percent for the sec-ond quarter of this year after

discounting for inflation. Wednesday's report did not give quarterly esumates, but husiness officials almost surely would have had to revise those earlier estimates downward to end up with the large

■ Moderate Recovery Predicted Alice M. Rivilin, director of the Congressional Budget Office, said Wednesday that she expects a moderate economic recovery to begin soon but that unemployment probably will stay around 10 per-cent through the middle of next year. United Press International reported from Washington.

Mrs. Rivlin told a Senate Labor subcommittee that a "moderate" economic recovery will begin "quite soon in the first half of the

She warned, however, that the jobless situation "could even get worse before its gets better," add-ing that "the problem is you just panded facility that the Group of don't get unemployment down quickly with moderate growth."

Mrs. Rivlin cautioned that huge deficits forecast for future years could choke off any economic re-

# Saudis Reported Set to Lend IMF \$6 Billion

NEW YORK (Renters) — Richard L. Anderson has resigned as director, president and chief operating officer of F.W. Wootworth Co., the company announced Wednesday. He will take a position as one of two chief operating officers at Melville Corp.

Mr. Anderson will be succeeded at Wootworth by Harold E. Sells, who served most recently as the company's senior vice president for international and property development. Mr. Anderson and Robert C. Kuhn will become chief operating officers at Melville, the retailing group said

#### **U.S. Firms Get Nippon Contracts**

NEW YORK (Renters) — Nippoo Telegraph and Telephone Public Corp. of Japan has selected three U.S. companies to supply equipment for Japan's telecommunications market as part of a program to open Nippon's supply market to foreign firms, the company said Wednesday. Paradyne Corp. was selected to supply Nippon with modems, Plantronics Inc. will provide prototype lightweight headsets for field tests, and AMP Inc. was chosen to provide prototype CCP cable connectors for field testing, the company said.

## Company Notes

Siemens has won a contract for 220 million Deutsche marks (\$93.3 million) to expand and modernize Oman's telephone network over two years, the West German company announced Wednesday in Munich. Sandoz, a Swiss pharmaceunical firm, has agreed to purchase Sodyeco, a dye-producing division of Martin Marietta, the U.S. company announced Wednesday.

"Mercer is someone who will be easier to get along with," said an analyst, who asked not to be

# Goodyear Sticking With Tires

By Leslic Wayne

New York Times Service AKRON, Ohio - Mention Goodyear, and many people think

"We're the No. 1 tire and rubber company and we expect to remain that way," said Robert E. Mercer, who took over earber this month as the chief executive of

Goodyear Tire & Rubber Co. But Mr. Mercer is facing competition. While rival domestic producers - B.F. Goodrich, Uniroyal and Firestone - have backed away from the low-growth tire business. foreign competitors such as France's Michelin and Japan's Bridgestone have moved into the U.S. market.

Bridgestone and Michelin seem to be more committed to making tires than our friends on the south side of town," said Mr. Mercer. "f think Goodyear stands alone in declaring it is in that business. And, when 1 look at Bridgestone and Michelin, 1 see a similar commit-

Mr. Mercer said the competition does not discourage him. I hope the competition is tougher than in the past, he said. "This business is like golf. You play better with a fast foursome than with Sunday

Mr. Mercer, a Navy veteran, Yale University graduate and fa-ther of five, was named president in 1978 and chief operating officer in 1980, after a 35-year career that he began as a Goodyear salesman. Mr. Mercer's elevation to Good-

year's top position is not expected to bring about major changes. As president and chief operating officer, he had worked closely with his predecessor. Charles J. Pilliod Jr., who spent 42 years at Goodyear.

Yet in style, Mr. Mercer and his predecessor are quite different. Mr. Pilliod ran a highly centralized op-eration, preferring to absorb responsibility. By contrast, Mr. Mercer is expected to give top executives more power,

Robert Mercer: Taking on Bridgestone and Michelin.

pect dramatic changes. People in that company have been there for- for Mr. Mercer. ever. It's like General Motors the changing of the guard isn't all

mate fully a foot shorter and 100 pounds lighter than Malone. Not much will fit over points and 15 rebounds.

Malone's shoulders. They bear the burden of a \$13.2 million, six-year contract — the biggest ever in the National Basketball Association — and the 76ers' hopes that the investment will pay off in more than one NBA championship.

Malone shrugs off any feeling

of pressure to bring a title to a team that, for the last six seasous, has seemed good enough to win one. "I just try to do my best to win ball games," he says. He did his best in Tuesday's 109-99 victory in Atlanta: In the absence of the injured Julius Erving, Malone had 31 points and a game high 17 rebounds.

But the spectre of past Phila delphia failures is there, staring at Malone and everybody cor nected with the 76crs.

"The 76ers have the player they think they need to take the title away from us," says Coach Pat Riley of the Los Angeles Lakers, who have beaten Philadelphia for the title twice in the last three years. "But that will have to wait until June. We have to wait and see." So until the playoffs come, the

76ers have to concern themselves with other things. "It's a long year to go through before the playoffs," says Coach Billy Cunningham. "Our first objective is to win our division."

The 76ers are 2½ games ahead of the second-place Boston Celties in the Atlantic Division of the NBA East.

said, "I generally don't concern myself with players' salaries. Whatever they can get, more power to them. But with Malone, our attendance is improved and so is our record against other

Erving said break also is be that Malone offensive bother was to stay in have to stay in have been son other teams of the contents of t

successful meshing with the The 76ers already were loaded with such all-stars as Erving, Andrew Toney and Bobby Jones, but Malone has managed to keep his statistics at a superstar level without stepping on his

teammates' egos. "My role's basically the same as it was with Houston," Malone said the coat's owner, a teaming this season, including a resays. "I just try to win and here I mate fully a foot shorter and 100 cent 122-120 overtime decision, have players who are smarter have players who are smarter and quicker, so we win more,"

dous risk," despite a 50 percent

rise in season-ticket sales, tripled

television revenues and Malone's

His addition bas brought notso-subtle changes in both the thavailable for recent comment 76er offense and their opponents' defense. Erving is scoring polyp from his throat. But he has more from outside, rather than said that he decided to pay the driving the lanes, and when a set money necessary to sign Malone play breaks down the 76ers throw the ball in to Malone for a shot rather than trying to set up

der with the Houston Rockets while, must play Malone straight last season, was available. So, up rather than double-teaming Katz reasoned, why not get the Erving or Toney, as opponents best? could do when Philadelphia had NBA Standings or the streaky Darryl Dawkins in

Bobby Jones is one player who was skeptical earlier in the season but now is a believer in Malone's ability to fit in. "I thought we would have lost more games to this point because of all the new players," he said. "We had four rookies on the team at the start of the season, plus Malone. But he has made us a

significantly better team." Erving says the eight-year vet-eran has "opened up situations for me outside and in the medium range that I've never had. He's so dominant in the low post that other teams tend to collapse on him, so my medium-range shots are not as contested as they used to be."

Erving said the 76ers' fast break also is better this year and that Malone "is so good on the offensive boards that other teams can't run as much - they have to stay in to rebound. There have been some spurts when the other teams just have no fast break at all against us."

Malone, Erving says, is "defi-nitely worth every bit" of the money be's making. "There shouldn't be a ceiling on what we can make when our careers

# Robinson, Marichal in Hall of Fame

Brooks Robinson and pitcher Juan year major league career with the Marichal grew up in the remote Marichal were elected to the Hall San Francisco Giants, Boston Red Dominican Republic village of La-Wednesday.

Robinson, one of the greatest defensive players in history during his 23 years with the Baltimore Orioles, became only the 14th player elected in his first year of eligibili-

Named on more than 75 percent of the ballots returned by 10-year members of the BBWAA in its annual election, Robinson and Marichal will be inducted into the Cooperstown, New York, shrine Aug.

Robinson holds major league records for third basemen for games played (2,870), putouts (2,697), assists (6,205), chances (8,902), double plays (618) and fielding average

He won 16 gold gloves and led the league's third basemen in fielding percentage 11 times. A member of 18 consecutive American League All-Star teams from 1960-74, he was the American League's most valuable player in 1964; be was also named the MVP of the 1966 All-Star Game and of the 1970 World Series. For his career, be batted .267 with 268 bome runs, 1.357 runs batted in and 2.848 hits. Robinson is only the sixth third

baseman elected to the Hall of Fame and only the third selected by the BBWAA. Others named by the writers were Eddie Mathews and Pie Traynor: Frank (Home Run) Baker, Jimmy Collins and Freddie Lindstrom were selected by the old-timers committee.

Born on May 18, 1937, in Little Rock, Arkansas, Robinson was 18 when he signed a professional con-tract with the Orioles. He became a starter for them in 1958 and, after being sent back to the minors briefly in 1959 to sharpen his batting eye, he took over third base on a regular basis in 1960. Four years later he reached the

height of his career by hitting .317 with 28 homers and a league-leading 118 runs batted in. In 1966 he teamed with Frank

Robinson, acquired in a trade with Cincinnati, to bring Baltimore its first world championship, It was in the World Series of

1970, however, that Robinson achieved his greatest acclaim. At the plate he went 9-for-21, including two doubles, two homers and six RBIs, and in the field be lived up to his reputation by turning sev-eral seemingly certain hits into routine outs in helping the Orioles defeat the Cincinnati Reds in five

Robinson was always at his best in the big games. In four World Series he accumulated a 263 batting average with 14 RBIs in 21 games and in five league championship series he batted .348.

# Martin III: Old Hype and Old Question

By George Vecsey

New York Times Service
NEW YORK — All the logic
says George Steinbrenner and Billy Martin can't work together, History says they will be at each other's at the helm this year?

But the inevitability of the move balances out the cyuicism. Fish got to swim, bird got to fly, and Billy and George got to make up every few years til they die. It is time to measure Martin's terms the way they count Super Bowls - in Roman numerals.

Maybe it was the opening-day weather that made it work. The paddleball players in the park behind Yankee Stadium shouted, "Welcome back, Billy!" when the once and future manager stepped onto the sidewalk. Spring was in the air. Hope, love, baseball. The grass in the stadium was

thick and green; the renovation in the stands seemed as modest as the the courts had decreed the Yankees could not open their season in Denver, and Billy Martin was in town - the first robin of spring. eries he batted .348. The two old sparring partners
Marichal, a right-hander, rivaled did their Punch-and-Judy, beer-

news conference to announce Martin's third term as Yankee mana-Billy said: "I'll be bandling all

the trades. And there won't be any more phone calls to the dugout."
And George said: "What do you mean? That's not right. I'm handling the trades. You're fired." Even Steinbrenner's benign

blasts at Bill Veock, Lee MacPhail and Gordon Davis seemed choreographed and scripted. There was little emotion left on anybody's part when Steinbrenner and Marin arrived together. It was nothing like Billy's running out on the field at old-timers day just five days af-ter being dismissed in 1978. This time be was just a bealthy-

looking Martin ("it's called sleep" taking on the same job for the third time in his life for the rather understandable buman motive that it's

the only job he ever wanted — even if he can't hold it (or long.

So Martin is back, Did anybody

gers can say: 1 m a winning manager. 1 can win. Billy can say that."

He has been dickering with Martin is back. Did anybody

throats by the All-Star Game. Intu-ition says Steinbrenner is going for ahead of Toronto and Cleveland Court in Manhattan had ruled the the quick fix, to provide "great less year in the American League copy for a lot of you folks — a great story for New York," as the Something — the familiar rush of New York Yankee owner put it Tuesday.

There are guys also have good the partisent said that 2,000 seats.

There are guys also have good the partisent said that 2,000 seats.

Michael or Bob Lemon to be back button the day after an unfavorable court decision. Acting Justice in Denver.

"There are guys who have good numbers and there are guys who are winners," he said. "Few mana-out on opening day in the Bronx,

really expect Clyde King or Gene iin for months, but he pushed the West show. They also figured to sell out the second and third days

Lane said that Steinbrenner "was grabbing a present to take his team to greener pastures, i.e., a larger stadium and a populace with an unfulfilled yearning for major league baseball."

The justice saw right through the scheme, and Steinbrenner reacted by accusing Davis, the commissioner of parks and recreation, of acting like "a nincompoop." Steinbrenner later said he had used the term off the record.

The owner was cooking on more cylinders than his manager. Martin seemed intent at smiling at journalists who wanted to know why the relationship would work this time when it ended in airport tirades once (1978) and a barroom altercation once (1980). He seemed eager to be polite and get out of town with the job intact, at least into soring training. Steinbrenner was more expan-

sive. In explaining why he had recalled Martin from the ranks of the unemployed, he said: "Our first breakup was very distasteful to me. got a call from the president of the American League, who suggested that Veeck and I change managers. Veeck got hold of Billy and said I had talked to him. That caused our problem the first time. Steinbrenner contended that

Veeck's discussion of a trade had led to Martin's "one's born, one's convicted" statement, accusing Reggie Jackson and Steinbrenner of being liars. Lee MacPhail, the president of the American League, recalled Tuesday that he had sug-gested that Veeck and Steinbrenner trade managers — Bob Lemon and Martin — "to keep both managers in the league."

veeck had nothing to do with all the other passages in Martin's career - the mania followed by the depression, the good year followed by the bad year, and sometimes the good month followed by the bad month; the feuds with players, the resentment of management. That's Billy Martin's track record, but on a warm day in January, it seemed as natural to say, "Play ball," as it was to ask, "How long will it last?"

# NCAA Stiffens Eligibility Criteria

of a minimum grade on college entrance examinations for a student. North Carolina A&T, said "there is

Athletic Association convention, backgrounds. And it has nothing to came shortly before the 277 major do with academic potential." colleges soundly defeated a proposal to establish a minimum-atten-dance requirement of 3,500 at bas-based organization that sponsors ketball games for schools to remain the SAT, only 40 percent of blacks in Division I.

The academic regulation estab-

on each one of us will be at the mercy of his or her local telephone I've always been very sentimen-tally attached to the old gal so I went over last week to say good-

'We're going to miss you. Ma," I told ber as she was packing some cable and silicon chips in ber suit-

"I'm going to miss every last one of you," she said. "You were all my children and we shared many good times and bad times together.

"It doesn't seem right to break you up." I said bitterly. "You were the best telephone system in the whole wide world. I never told anyone this before, but you were the only monopoly I ever loved."

"I did the best I could." she said, wiping away a tear. "Some people did call me a monopoly but I was a benevolent one. I had to make a profit for the widows and orphans who owned my stock. But I also made it possible Ior

almost everyone in this country to own a telephone. I soaked the rich on long-distance calls, so I could subsidize the poor who wanted to

make local ones."
"You were the last American monopoly who bad a heart." My only desire in life," she

was to reach out and touch I handed her a Kleenex.

#### Dating Service to Aid In Herpes Research

United Press International ARLINGTON HEIGHTS, Illinois - Sulferers from herpes, the so-far incurable sexually transmitted ailment, are getting belp from a young man who has started a notfor-profit herpes dating service, the Quest Foundation.

The service is available only to those who have herpes, so there is no worry about spreading infection. John Fersyth, 32, said about half the dating service fees would go to herpes research.

WASHINGTON — One of the saddest things Americans will have to lace in 1983 is the sent one of my people out there sent one of my people out there right away to fix it and I never

charged you."
"And when we got lucky you always let us keep the change we found in the coin box at a pay

"The girls I trained to be operators were the friendliest women in America. And I respected people's privacy. If you didn't want to be in the phone book I always lound you an unlisted number." "You let our fingers do the walk-

ing in the Yellow Pages."
"I tried to make life a little easier for everybody."
"Tell me, Ma, of all the innova-

tions you thought up during the years, which one were you the proudest of?" The collect telephone call. I

made it possible for generations of children to keep in touch with their parents. I doubt without the collect call if parents would have ever heard Irom their kids again." "Only a mother would have thought of the collect telephone

She put a Princess phone and a Touch-Tone dialer in her suitcase.

The Justice Department never did like me. They've been out to get me for years. Well, at least I wired up the country before they won their case." "If it hadn't been for you there

wouldn't be telephone poles strung across this nation from sea to shin-"Could you use an old switch-

board?" she asked me.
"I'd like that. It would remind me of the wonderful times we had together.

Well, I guess I'm all packed," she said. "It was nice of you to stop in and say goodbye. Most people

lorget."
"I'll never forget you. Every time the phone rings I'll say to myself, 'Ask not for whom the bell tolls. It tolls for Ma." Tears started to well up in her

"I suppose now that I've been broken up you'll never call me any

"Of course I'll call you, Ma." "When?" "Friday." "Mrs. Estrin's son Melvyn calls

The Pac-Man Overture in G-Whiz - Or Play It Again, Tron By Joseph McLellan

WASHINGTON — Play it again, Tron. You can see the addicts any day in the video-game arcades that have spring up all over the map; they stand in front of the hrightly colored, fast-moving screens, piloting their tiny tanks, simulated starships or little yellow dots. The air around them is full of music. A dissonant chorus

ton Post Service

tion music, the music of victory or defeat The music mingles with sound effects; sometimes, as in the works ol many

of Space Invaders, Pac-Man, Berzerk and Tron: theme music, ac-

serious modern composers, st is begins and the sound effects end. call the Come-On (alias Overture If a fire siren can be music in Varese's "lonization," and the sound of cannon can be music in the "1812 Overture," why can't the whoosh of a guided missile or the splat of an enemy being pul-

verized be music in a video game? And even if it is not all music (as the theories of John Cage would suggest), some of it is certainly music. The sound is always electronic, with that special, disembodied effect that you get when a note is generated not by wood and strings or brass and breath, but by electricity.

In a well-stocked and busy

game center, the music is semialeatory and polytonal; many different musical events happening together, more or less at ran-

Video addicts think they are drawn by the fast action, the sense of adventure, the challenge to their hand-and-eye coordination, but that's only part of the story. The music, too, works on them subliminally — like a movie soundtrack. Video games with sound are setting new records in the entertainment industry.

What kind of music are the addicts getting? If you consider a video-game arcade as a total sound environment, it is a rather complex experience - and you

don't have to pay for it. Just stroll in and hang around lor a while. If you take the music for any one game and analyze it, though, it is essentially a simple experience. The music usually has no harmony or counterpoint, just melody — one note at a time
— and the melody tends to be no
more complicated than "Twinkle. Twinkle, Little Star" - nowhere near the complexity of the march Irom "Star Wars." A few sophisneated games will modify the music according to how your

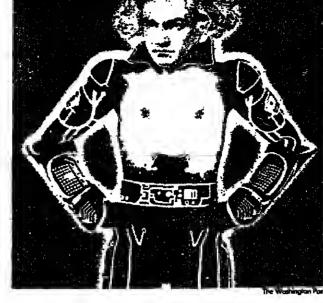

game is going, but most of them simply rattle it out like a music box to punctuate the action. The typical sonata for a video-game maposed in three movements. which we might

or Title theme), the Mickey-Mouse (or Scherzo Programmatico) and the That's All, Folks (or Finale). The Come-On, typically, is at-

tractive, fast-moving music played while the machine is waiting for a customer, displaying its title and occasionally flashing a sample bit of the action to attract the attention of hystanders. "Mickey-Mouse" is a term

coined by the writers of Hollywood soundtracks to designate music (used particularly in animated cartoons) that describes or illustrates the action on the screen - when the hero gets hit on the bead, the music goes "bonk"; when the bero runs, the music speeds up; when the hero lalls down the stairs, the music falls down the stairs. Mickey-Mouse is the bread and butter of video-game music. It does not need to be very sophisticated no more sophisticated than what

is happening on the screen. Most of the music of video games sounds as though it were written by a computer, but a few games use recognizable tunes from the pubbe domain: "Ob Susannah" in Kangaroo, lot example, and a fragment of a Bacb

heard as the Come-On for Don- asts. But in the video-game ph key Kong. One of the Iew games whose

music seems to have stylistic of Wor, with sounds designed to promote a sense of dread and eerness. It uses a cognate of the "Dragnet" motif at the beginning, played slowly in organlike tones and pepped up with accel-erating percussive sounds as the action picks up. After you lose, the motif is transformed by pla-

gal cadences into a kind of dirge. There are two possible kinds of That's All, Folks, or finale: mournful music played when you lose or a triumphant tune for when you win. Most game designer dillegate transport of signers (like most composers of symphonies) have discovered, however, that the mass audience prefers music with a happy end-ing. So the That's All, Folks music tends to be bright, brisk and upbeat, probably on the theory that this kind of sound will encourage you to put in another

the tune of \$6 billion. What's happening? If it is disscribed as the final breakthrough in popularization of electronic - which was, until quite fugue in Looping. A close cousin of the "Dragnet" theme can be hardy band of wild-eyed enthusi-

quarter.

nomenon, of which music is only a small part, what we see happening is the sublimation of the trib-

ems, or a member of the ruling lamily, as in Purcell's odes, but the customer operating a video game. Everyman has become Achilles, and anyone with a pocket full of quarters can become an Esterhazy. In the imagery of the games, the new Achilles fights against goblins, dragons, creatures from outer space - but we all knew that on deeper levels the battle is really flesh and blood against the inhuman strength and intelligence embo-died in the dance of the electrons. In this dimension, as in the old epics, the bero embodies his society. And the terms of the struggle

echo the central problem of our time: the question of whether Last year, it worked to mankind can remain master of its own technology. The music for these epics, like that in epics of cussed in music histories of the the past, plays a peripheral role future, it will probably be de-but it beightens the interest of the story, enhances the glory of those who win and belps to soften the pains of defeat for those who don't That's all, folks.

coherence throughout is Wizard al epic: a rite of passage for the of Wor, with sounds designed to citizens of the new electronic vil-The hero of this epic is not a demigod, as in the Homeric po-

Lady Diana, now Diana, Princess of Wales led all the rest on Mr. Blackwell of Hollywood's list of the 10 worst dressed women in the world. "Shy Di has invaded Queen Victoria's attic," he said. Among those on the list: Victoria Principal, a "'Dallas' Valley girl".
Charlene Tilton, "a Victorian lampshade holding her breath";
Dustin Hoffman, in his Ismale impersonation as "Tootsie"; Bette Midler, Christina Onassis, Princess Yasmin Khan, (a "preppy gypsy")
Cathy Lee Crosby and Houston's
Mayor Kathy Whitmire. Mrs. Whitmire and Hoffman tied Ior 10th place. Nancy Reagan, not on the list, was cited Ior having commit-ted the "fashion flop" of the year by wearing knickers.

The rock maestro Frank Zappa got a warm welcome of sorts when his hotel caught fire during a visit to London to rehearse with the London Symphony Orcbestra. "I was outside in the street in my shirt while they figured out where the fire was," he said after the incident interrupted his breakfast Tuesday,
